

Church Notice.

Services every Sunday, at 10:30, at the Methodist Episcopal Church, on Main street, Prescott. Sunday school immediately after service. REV. D. B. WILSON, Pastor.

REV. MR. WILSON, Methodist South, will preach at 11 A. M. and 7 P. M. each Sunday, at T. H. Head's house, on McCormick street.

SPECIAL NOTICE in the reading columns will be charged at the rate of TWENTY CENTS per line for first insertion, and twenty cents a line for each subsequent insertion.

Local Intelligence.

From Saturday's Daily.

Wm. M. Buffum, Esq., bought the old School building, sold to-day by auction, for four hundred and seventy-five dollars.

J. S. Johnson has sold his ranch on Upper Verde, to Mr. Gordon, and gone to Hayden's Ferry, on Salt River, to live.

Yesterday, in transferring an account of the number of packages brought by the Colorado steamer for various parties in Prescott, from the Daily to the Weekly MINER, we accidentally separated the introduction from the figures, and they appeared in two installments, in different parts of the paper.

MONSTROUS VEGETABLES.—Louis Winert, of Peoples Valley, has presented us with a turnip, of his own raising, which measures two feet and ten and a half inches in circumference, being the largest vegetable of its kind we ever saw. He also brought to town a cabbage head from the same ranch which weighed twenty-five pounds.

Our Devil, having laid aside the Tucson Citizen, in which he had tried to find a single paragraph that he could believe, has borrowed John Connel's copy of Baron Munchausen, which he says appears more reasonable, but still he has his doubts whether that is all aridly true or not. "The world is so given to lying," he says. "The praise the Baron received from all sorts of people for his exploits when he traveled, and the assurance with which the Baron heralded his own greatness, have suggested an analogy between them, and seems to render the one a proper sequel to the other in the way of light reading."

Mr. Morrison, Supt. Pinal Co. and S. M. Wessels, Foreman of the works, have gone to San Francisco, on business connected with the Company. Wessels goes to meet his family who, for some time have been residing in Salt Lake City; and will return here with them within twenty days. He has some valuable interests outside his connection with the Pinal Co. and may come back on his own hook.

C. H. Atkins, who with J. Rosenthal, is putting up extensive reduction works at Wickenburg for working the Vulture tailings, has been in town during the week and purchased a large bill of lumber from G. W. Curtis, Esq., which he proposes to use about the premises. Elias Junior informs us that he has made arrangements to furnish them with all the galena ore they will require in smelting the tailings, from the old Montezuma mine. It requires one third of a ton of the galena to every ton of tailings in order to work them to advantage.

From Monday's daily.

Mr. Perkins, of the Agua Fria Smelter, has shown us some assays from the ores which they are purchasing from the lessees of the Silver Fluke and Kit Carson mines. The assays run from \$350 up to nearly \$1,000 per ton. Perkins & Co. are paying from 10 to 15 per cent. of the assay value of these ores on the dump—which makes it a profitable business for the miners who are taking on the ore, and is very encouraging to the owners of the mines. The men who are working on the Kit Carson have engaged lumber, and are about erecting a sub-plant in which to live during the winter, and which will remain a part of the mine property after the contract is completed.

Mr. Sheppard, an old Californian, who has been East on a visit to the old folks at home, arrived here by this morning's stage, after a week from Lyons, N. Y. He is looking over the country with a view to going to the sheep business.

The addition being made to Goldwater's mine, on the southeast corner of the Plaza, is to assume magnificent proportions.

The brick-kiln at Harris' yard is burnt out, now cooling off ready to draw. Mr. Harris, the proprietor, informs us that he has a first-rate "scald" on it, and that it will be in beautiful condition. It can also make 150,000.

Our Associate Editor, Col. H. A. Bigelow, having an important mining matter on his hands, out on the East. Hisayayampa, has been unable thus far to give the paper much attention. He hopes in a short time to have some in such shape that it will not require his personal presence, when we shall be the even of each day, much more thoroughly than we have been able to do it alone.

Wm. H. Hardy, who has been out on the Cottonwoods, returned yesterday evening.

Sam Bones arrived with his stage-load of about noon to-day. We hear that there is a large load of passengers waiting to go to California with him.

Next Thursday evening the Whipple Hotel will give a show in Luke's Hall. Their attractive programme.

THE BOARD OF CANVASSERS.—The Board met at 10 o'clock this morning at the Registrar's office and proceeded to count Precinct, and adjourned until to-morrow morning at ten o'clock on account of the installation of Judge Fleury, a member of the Board. The count of this precinct being exactly figure for figure, as we published on the day after the election, so far many officers are concerned, with the election of Dr. Warren E. Day, for Coroner, received 57 votes, we have considered these to republish it to day, and have added to wait until other precincts shall be added to the count.

Item made a day or two ago we Elias Junior had engaged to deliver a lecture to the new smelting works at Wickenburg, which was our understanding at the time he informs us that he has made no commitment, but has the ore on hand and engaged to deliver any quantity to any company that wants to buy it.

Two returned last night from where he spent court and transacted amount of business, but owing to the absence of Attorneys a majority of the court over until the next term.

R. J. Rutherford, having entered a protest in the matter of the election of Daniel Mitchell Justice of the Peace, the Township returns will not be canvassed until the tickets are all recounted as to that office, which will detain the Board for some considerable time.

The new Senator mill house, is up; the batteries set; the machinery is expected to begin to arrive about the 26th and as it is loaded at different times, it will probably be coming in for a week or ten days.

From Tuesday's Daily. PROBABILITIES.

According to the best information we can get, the delegateship stands: Hardy, 207 in Mohave, 25 in Pima, 24 in Maricopa, 3 in Pinal, 6 in Yuma, and 800 in Yavapai, making in the aggregate, 1,066. Stevens, 499 in Pima, 25 in Maricopa, 22 in Mohave, 75 in Pinal, 164 in Yuma and 359 in Yavapai, making an aggregate of 1,114. Ourry, 92 in Mohave, 210 in Pima, 219 in Maricopa, 295 in Pinal, 185 in Yavapai and 29 in Yuma, making an aggregate of 910. This estimate is based upon the presumption that what we hear from east of the Mogollons is true, viz., that Stevens received 104 at Clifton and 250 on the Little Colorado and that neither Hardy nor Ourry received anything east of these mountains, which seems unreasonable. We give the figures as received without counting any votes in that country except for Stevens.

NEW DISCOVERY IN BUGOLOGY.—Jay G. Kelley, the Assayer, having observed the curious workings of an insect between the bark and wood of the dry Juniper of this country, in which the lines of travel of the insect, a small white worm, were all very distinct, and each perfect in itself, never crossing each other, or coming to together at any point; but radiating from a common center like the wings of a fan and forming what has the appearance of beautiful carving on wood; sent a sample to Professor Hanks, of San Francisco, and received by last mail an answer that it is a new discovery in natural history, and very interesting to entomologists and naturalists. The Professor requests other specimens of the wood and also the worm that does the work for examination.

Messrs. Poland and Roberts are running two arastras at their camp on upper Big Bug Creek and taking out bullion very rapidly. Their rock pays about one hundred dollars per ton.

Mr. Knapp is working one arastra on upper Lynx Creek, and making his fine gold ledge pay very handsomely.

Mr. Bennett is packing ores from the Turkey Creek District over the trail through Big Bug Valley to the Agua Fria Smelter.

The "Bulwhacker" mine has piled up an enormous dump at their mine, and are doing well, considering the general lack of machinery in Arizona mines.

The Elliott boys are still running the arastras by steam. The work at their mine is done in a most thorough and workmanlike manner, far better than at most of our mines.

The mines being worked in the Black Hills are all doing well.

A very large party of Pueblo Indians from New Mexico are at Fort Whipple on their way to California. They claim to be from the Zuni Villages and are going to make a grand pleasure and educational tour before returning.

Judge Weber is believed will be able to set up in ten days, and will be out on crutches in three weeks.

J. H. Lee, at the American Ranch, proposes to give a grand party on the evening of Thanksgiving Day, Nov. 30. Tickets including Supper, \$5.00.

From Thursday's Daily.

RETURNED.—Alex. Harris, the brick yard man, who has been East, visiting friends in the old Hoosier State, during the Centennial, and traveling about for his health, returned this morning, looking more than a hundred per cent better than when he went away.

The Thanksgiving ball at Lee's on the 30th promises to be the great event of the season. He has gone to great expense in building his new house to have it arranged with a commodious hall arranged especially for balls and parties. It is just the right distance from town for a pleasant drive over a splendid road, making it almost impossible for young people to stay away.

LECTURES.—On Sunday evening next Rev. J. A. Merrill will begin a course of lectures in the M. E. Church, upon Science and Revelation. The first lecture will be introductory, defining the terms to be used and laying out the work of the course. All are invited to attend.

The Board of Canvassers met this morning and heard the argument of J. W. Leonard, Esq., on the motion to throw out the Clifton vote. Judge Goodwin appeared on the other side, and as he had just been called into the case, asked that it be postponed until next Monday which was accordingly done.

THE PRESCOTT LITERARY AND DRAMATIC ASSOCIATION effected its permanent organization last Monday evening. The following officers were elected: M. H. Sherman, President; Captain Royce, Vice President; E. J. Bennett, Secretary; G. E. Brown, E. S. Seed, H. B. Sherman, E. P. Clark, F. G. Parker, Executive Committee. Chas. Allabach, John Lloyd, J. A. Merrill and President and Vice President, Committee on Programing.

The object of the society is twofold, first, literary and improvement upon topics other than political or religious; and secondly, the establishment upon a sound and permanent basis of a public reading room and library. The funds already collected under the auspices of the Presbyterian Church society, for a reading room, will be turned into the treasury of the Association. It is the intention of the society to put forth every effort for the purchase of a building, that the reading room may be opened at once. This is an object in which every citizen of Prescott should take an interest. The former liberal object of our citizens warrants the belief that funds will not be wanting for the use of the society. The first regular meeting of the association will be held on Tuesday evening, November 28th, at the Court house. All interested in the aims of the society are cordially invited to be present. Those who join at this meeting will be considered Charter members.

It is especially desired that the ladies be present as two or three of the officers are to be filled from their number.

Secure your tickets for the Grand Thanksgiving Ball, at the American Ranch, on the 30th inst. Wit and beauty will be there.

For cooking and heating stoves go to FREDERICK & HEENAN.

BUCKS, BUCKS.—Z. Rochoon has on his ranch, seven miles from Prescott, and two miles from Burnt Ranch, about sixty, fine, French and Spanish MARINO BUCKS, which he is determined to close out this Fall. They were sheared in June last, and now is a good time to see and judge of their quality. Enquire at John G. Campbell's store, in Prescott.

RANCHING STOCK.—W. H. Furguson, having superior grazing lands for winter pasture, on Lower Agua Fria, will be at Clay's O. K. corral, in Prescott, on the 1st and 15th of each month, where he will receive stock to ranch, on reasonable terms. He has accommodations for from one upwards.

Iron Crown (imported) Gin, at GANZ'.

The people of Camp Verde and Verde Valley are notified that a Photograph Gallery will be opened at that Post week after next.
